

# Grand Hotel ROYALE

Step into the opulent lobby of the **Grand Hotel Royale**, where elite animal guests like the dapper Hippo and glamorous Peacock wait to show you a five-star fortune. This cascading reels slot delivers the ultimate VIP treatment with a "Pay Anywhere" mechanic, meaning you just need 8 or more matching symbols anywhere on the screen to trigger a payout. Every win causes the winning symbols to be paid and removed, allowing new symbols to drop down and potentially create endless winning cascades. To elevate your stay, keep an eye out for golden **Multiplier Symbols** (x2, x3, x4, x5, or x10) that can randomly appear; at the end of a spin, all multipliers are added together and applied to your total win.

The real riches are locked away in the hotel's vaults, accessible only by landing the coveted **Bonus Symbols**. Gather 4 or 5 Bonus symbols to unlock 10 or 15 **Golden Vault Spins**, where your total multiplier becomes persistent and doesn't reset between your free spins. For the most exclusive VIPs, landing 6 Bonus symbols grants access to 15 **Royal Vault Spins**. In this elite feature, not only is the total multiplier persistent, but the multiplier symbols are actually multiplied together, unlocking truly massive payout potential. In both of these bonus games, landing 3 or more Bonus symbols will award you an extra 5 free spins to keep the party going.

Don't want to wait in line for the elevator? The **Bonus Buy** menu lets you purchase direct access to the Golden Vault Spins or Royal Vault Spins. You can also activate the **Double Chance** side bet, which increases your base spin cost but boosts your odds of triggering the bonus features naturally. With a maximum possible win of **10,000 times your bet**, this is one hotel reservation you definitely won't want to cancel!
